Aegis

Check-In 4-Wheel Hybrid Duffel

For 50 years, Peli has been trusted to protect what matters most in the harshest environments on Earth. Now, that legendary protection rolls effortlessly through every airport, expedition, and adventure with the Aegis 4-Wheel Rolling Duffel.
This isn't just another soft-sided bag. The Aegis delivers Peli Shield™ protection—our signature EVA molded front shell that defends your belongings from drops, pressure, and the unexpected—engineered for travelers who need serious protection with maximum mobility. It's the perfect complement to our ATX hard-sided luggage: choose maximum protection when you need it, choose ultralight versatility when the journey demands it.
Where traditional soft bags leave your belongings vulnerable, the Aegis stands firm. Where you need the confidence of Peli-grade protection without compromise, the Aegis delivers. This is hybrid engineering done right: the resilience of Peli, reimagined for modern travel.
