Field Master Kit

When your livelihood rides on flawless footage and unbroken comms, “good enough” isn’t even on the packing list. The Field Master Kit merges Peli’s flagship 1510 Protector Case with an all-terrain RucPac backpack harness, plus dedicated micro armour for batteries, drives and SD cards. From rain-lashed jungles to city rooftops, you’ll travel light, carry smart and keep every mission-critical component cocooned against shock, dust and full submersion. One investment, four pro-grade tools, zero margin for failure.

When the Elements Turn Hostile

Tropical downpour, cement dust or an unexpected dunk in a mountain stream—whatever the day throws at you, your kit stays bone-dry. The IP67-rated 1510 Protector Case shrugs off water metres deep and survives baggage-handler brutality, while the M50 Micro Case gives cameras, batteries or sensors their own watertight bubble. Pair them with the crush-proof 0915 SD Card Case and you’ll never lose data to the weather again.

Wear Your Case, Free Your Hands

Lugging a roller up a scree slope wastes time and energy. Clip on the RucPac Pro Hardcase, flip out the padded shoulder straps and the 1510 (or any compatible Peli case) rides like a balanced, ventilated backpack. Weight transfers to your hips, leaving hands free for drones, tripods or that last-minute phone call from the client.

Pack Once, Trust Forever

Every component carries the legendary Peli lifetime guarantee, so the Field Master Kit grows old with you instead of obsolete. Replace stacks of soft bags and improvised covers with a single, field-ready ecosystem that stands up to airport X-rays, Arctic freeze and Saharan heat alike. Pack confident, shoot fearless, deliver on schedule.

Four Essentials. One Smart Choice

Included:

- Peli 1510 Protector Case (Black – No Foam)
- RucPac Pro Hardcase Backpack Harness
- Peli 0915 SD Card Case
- Peli M50 Micro Case

Peli 1510 Protector Case

Airline-carry-on compliant yet Mil-Spec tough, the 1510 seals out water, dust and impact. Smooth wheels, a retractable handle and an automatic pressure valve make travel painless, while its 514 × 288 × 191 mm interior swallows pro camera bodies, drones or survey instruments with room to spare.

RucPac Pro Hardcase

Premium harness converts the 1510 into a ventilated backpack. Height-adjustable shoulder straps, ventilated back panel and hip belt share the load; the harness folds flat inside the lid when not in use.

Peli 0915 SD Card Case

Crush-proof polycarbonate shell with shock-absorbing liner stores 12 SD and 6 microSD cards. IPX4 seal, snap latch and lanyard loop keep mission-critical media protected and organised.

Peli M50 Micro Case

Pocket-sized IP67 mini vault for batteries, drives or first-aid bits. Dual latches, padlock hole and pressure valve ensure watertight, dust-tight security, even after altitude shifts.
