

2000 SabreLite™

This powerful flashlight was designed with one thing in mind: SAFETY. It carries a variety of approvals, allowing safe use in many different hazardous environments and conditions. The SabreLite is o-ring sealed with a twist-on shroud and comes with a polarity battery guard tray that safeguards against dangerous "outgassing" of hydrogen from an accidentally reversed cell. It is powered by 3 C alkaline cells, submersible, and has an ABS resin body which resists chemicals, corrosion, and extreme temperatures. Unlike ordinary flashlights that produce a yellow beam, the SabreLite's incredibly bright Xenon lamp produces a powerful white beam. Peli's SabreLite is the leader in quality and performance.

- Built Peli tough
- Submersible
- Super bright Xenon beam
- **Where applicable by law

DIMENSIONS

Length	7.79" (19.8 cm)
