

## CRD\_ACC\_091

### CRDBAG

#### Hook & Loop Organizer Strap

Repositionable elastic organization for loop-lined gear. Attach the HOOK & LOOP ORGANIZER STRAPS to your GRID LID, GRID DIVIDE or other loop-lined surface to secure cables, tools and accessories exactly where you want them. Supplied with both 20 mm and 40 mm loop configurations for organizing equipment of different sizes.

The HOOK & LOOP ORGANIZER STRAP is a simple, repositionable solution for securing cables, tools, accessories and other loose equipment.

A full-length hook backing attaches directly to the CRDBAG GRID LID, GRID DIVIDE, or virtually any surface lined with loop fabric. Elastic retention loops keep equipment securely in place while allowing quick and easy access.

The straps come in two configurations with 20 mm or 40 mm loop intervals, giving you options for organizing everything from smaller cables and accessories to larger tools and equipment.

Place them horizontally, vertically or wherever they work best for your setup. Peel them off, reposition them and reconfigure your organization as your loadout changes.

Length: 205 mm

Main webbing: 15 mm webbing

Hook backing: 25 mm

Elastic loop: 25 mm

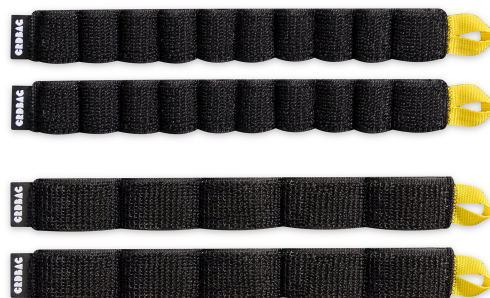

Loop intervals: 20 mm / 40 mm

Attachment: Hook and loop
