M2 Thermal Transfer Label Maker Bundle 01

The CRDTABS M2 Label Maker Bundle combines the NIIMBOT M2 thermal transfer label printer with CRDTABS-sized label rolls, printing ribbons and matching CRDTABS tabs in one complete kit.
Choose between two label formats depending on your setup:
CRDTABS BRICK uses the wider label format designed for CRDTABS BRICK.
CRDTABS uses the standard label format designed for CRDPOUCH, FUSED MINI and Y-WRAP.
Both bundles include four label rolls, three ribbon colors and three CRDTABS tab colors, giving you everything needed to create clear, durable and color-coded labels for your gear.
The NIIMBOT M2 connects wirelessly via Bluetooth, making it easy to create and print custom text, graphics and identification directly from your phone.
